Mechanical Design Engineer

Varta AG | Contract | October 2018 - February 2019

- Collaborated with VARTA AG on innovative battery project design.
- Crafted detailed 3D battery models with SolidWorks, visualization renderings.

Automotive Design Engineer

LOMA Wheels | Contract | May 2018 - September 2018

- Created Ferrari Portofino bumper and rear, improving design with SolidWorks.
- Collaborated load testing with SolidWorks to enhance performance and design.

TOOLS & HARD SKILLS

- SolidWorks (CAD, FEA, Mechanical Design)
- AutoCAD (drawings, architecture design)
- Cinema 4D (3D modelling, animations)
- Python (computer vision)
- C++ (software development)
- MATLAB (object detection, simulations)
- LinkedIn Sales Navigator (sales, leads gen.)
- KeyShot (industrial animations)
- HubSpot (CRM, sales, email marketing)
- After Effects (motion design, animations)
- Photoshop (image manipulation)
- Illustrator (graphic design, illustrations)
- InDesign (page layouts, design prototypes)
- Inventor (mechanical design)
- 3Ds Max (modelling and animations)
- Excel (data management, calculations)
- Unreal Engine (simulations, animations)
- Google Analytics (data analysis, campaigns)
- Figma (web design and product design)
- Jira & Confluence (project management)
- Google Ads (campaign marketing)
- SAP (data management)
